

Tobacco companies appear to be introducing many new types of e-cigarettes that are sleek, concealable, and modern.

Some vendors state that they can't keep up with the volume of new ecigarette products

The STIG is going to transform the vaping experience for everyone who uses it do to the fact that it provides an effortless, flavorful and satisfying salt nicotine experience! The pod systems just keep coming! I’m having a hard time keeping track of all the new devices that are hitting the market. The **7 Daze Zoor** looks like another good one though. The cartridges have a 2mL **e-liquid** capacity, which is significantly better than your average closed pod system. If you want to check it out, head over to Ecig-City. They just did a big price drop on this one—it’s now selling for only \$21.99. Plus, you can save an additional 10% with coupon code “VIPHDWR10” (\$19.80 total). Please note that the pods are sold separately, so you’ll definitely want to pick up a pack of those as well (link below).

7 Daze Zoor Flavors

- MINT: A cool refreshing and sweet menthol
- APPLE: Apple juice flavor
- CAKE: Sweet and creamy dessert flavor
- MIXED: Multi-pack
